

# LED TUBE

The Safest LED Tubes, Made in Syhdee!

## General Introduction

UL Listed LED Lights T8 uses SMD LED2835 as light source and there are 600mm(2 feet), 1200mm(4 feet), 2400mm(8 feet) available. With longer lifespan(>50,000hours), higher brightness and less toxic substance, it can be widely used to replace the traditional fluorescent tube lights. New UL Listed LED Lights is featured by orange round end caps design. This UL Listed LED Lights adopts the standard G13 socket and work with AC100-277V. It is UL and RoHS certified.

# Product details

## LEDs Light Source

LED chip from reliable LED supplier Epistar, and Saman. SMD LED2835 with less light failure, longer lifespan, higher brightness and wider luminous surface.

## LED Driver

Non-isolated power supply outer thimble insulated protection casing.

## PC Cover

V0 optical-grade PC Cover to ensure high light emitting rate and uniformity no yellowing and no cracking .

## Aluminum alloyed housing

Aluminum alloyed housing with Anodic oxidation technique to protect alloyed aluminum housing surface from corrosion and scratch and excellent heat dissipation.

## About SYHDEE

### Concentrated on LED Tubes

Specialized in producing, researching, and developing all types of LED tubes for around 5 years, Syhdee has already won trust and favor from customers at home and abroad.

### Production Capability

With a 30,000 square meter workshop equipped with advanced machines and over 270 skilled workers, our production capability has reached 400K pieces of LED tube lights per month.

### R&D Strength

Professional R&D team to guarantee the stable performance of products:

Chip & Packaging Team

Illuminating Efficiency Team

Electrical Engineering Team

Electronic Engineering Team

Hardware Structure Team

Industrial Design Team

### Product Quality

Syhdee Manufactory has passed Germany TUV Rheinland and DEKRA Quality Management System certification.

Syhdee LED tubes complied with VDE, TUV, UL, FCC, DLC, SAA, C-Tick, CE&RoHS, Erp, PSE directives, etc.

### Factory Direct Price

We are the manufacturer of LED tubes, which enables us to offer our customers factory direct price. Meanwhile good relationship with our material suppliers, skilled staff and advanced facilities make it possible for us to quote the most competitive price.

### LED Tube OEM&ODM Project

As one professional LED tube supplier in China, we can offer the turnkey LED tube solutions for our customers. OEM&ODM project is well available.
